EDUCATION

HKBBK College of Engineering

Bachelor of Engineering in ISE(Information Science and Engineering)

CGPA: 8.45

Bengaluru

2023 - 2027

Morarji Desai Residential PU College

PUC in PCMB

Percentage: 90%

Chikkaballapura

2021 - 2023

SKILLS

Programming Languages: Java, C

Libraries/Frameworks: Java Script, Java Swings, DSA, Core Java

Tools / Platforms: VS Code, Command Prompt, NetBeans, Eclipse, My SQL

Databases: SQL

PROJECTS / OPEN-SOURCE

Airlines Management System

Core Java(Swings,AWT)

The Airlines Management System is a desktop-based software application designed to automate and streamline the operations of an airline. The system provides functionalities for managing flights, passengers, and bookings. It allows the airline staff or admin to perform CRUD (Create, Read, Update, Delete) operations on flights and passengers, book tickets, cancel bookings, and search available flights. The user-friendly graphical interface is developed using Java Swing and AWT, ensuring easy navigation between different features. Data can be temporarily stored using Java collections (like ArrayList) or can be permanently stored using file handling or databases.
